

Vinyl Speaker 1

**2 DMA58-8
Speaker Drivers**
for maximum bass
& sound quality

Cool Features:

- Private: AI Model can be hosted locally if you wish
- Hackable - Feel free to tinker with the code!
(GPIO Pins might be added later)
- Actually smart - Uses Cloud AI using an API or local AI using ESPHome, so this thing can actually be useful

**ESP32-S3, the
brains of this
project**

**PAM8403D - The
audio amplifier**

**Screw Terminal
Blocks for the
Speaker Drivers**

**PCM510
2A - The
DAC**

**Reset button
for the ESP32-
S3**

**Boot button
for the ESP32-
S3**

**USB C port - The
EU will be
happy!**
