# Vinyl *Speaker* 1

## Sounds great!

Powered by two DMA58-4 2" drivers, this little guy can really sound great in a big room. The dual speaker system enables stereo sound, for possible use while watching movies!

## Actually smart.

Powered by ESPHome, this speaker can be fully controlled with Home Assistant, which enables a whole world of automations by itself.

## Open source!

Want to see the board schematic? Go ahead! Want to make a custom case? Go ahead! It's all open source! The board, 3D model, etc can be found by scanning this QR code!
